# GOL Continues to Execute Comprehensive Restructuring Plan

São Paulo, May 6, 2016 – GOL Linhas Aéreas Inteligentes S.A. “GOL” or “Company” (BM&FBOVESPA: GOLL4 and NYSE: GOL), (S&P: CC, Fitch: C and Moody’s: Caa3), the largest low-cost and best-fare airline in Latin America, announced this week the final phase of the comprehensive restructuring plan begun in mid-2015. This phase includes the restructuring of up to US\$780mm of unsecured bonds issued in the international capital markets. GOL’s USD unsecured bondholders now have the opportunity to exchange their securities for new secured bonds at a premium to their current market value. The USD unsecured bonds are the last major group to be approached in GOL’s comprehensive financial restructuring.

On May 3, 2016, GOL began the final component of its restructuring plan. This component, which is the restructuring of US\$780 million of its outstanding USD bonds, is an important transaction for the Company.

“GOL’s offer to exchange all of its outstanding unsecured USD bonds for new secured bonds, with collateral covering more than 100% of the new bonds, in addition to a cash component, and at a premium to current market value, is a great opportunity for GOL’s bondholders to voluntarily participate in its restructuring and receive a premium for their bonds,” remarked Edmar Lopes, GOL’s CFO.

In mid-2015, GOL began its comprehensive restructuring plan, addressing over R\$17 billion of debt and other obligations, with a shareholder equity infusion of US\$150 million: raising US\$100 million from its controlling shareholders, who maintained their equity stake at 63%, and US\$50 million from GOL’s strategic partner, Delta Airlines, which increased its equity stake to 9.5%. Delta Airlines contributed additionally to GOL’s plan by providing a guarantee of a US\$300 million Term Loan to further aid in GOL’s restructuring plan. During 2015, GOL’s suppliers contributed with better terms, producing R\$300 million of annual cash savings to the Company.

GOL’s restructuring has continued to progress in 2016. Aircraft partner Boeing agreed to give the Company delivery flexibility, resulting in up to R\$550 million in cash flow to help fund the exchange offer. GOL’s aircraft lessors are expected to contribute with R\$220 million of savings, and Delta is providing additional help through the reduction of GOL’s pledge of shares in Smiles. Banco do Brasil and Bradesco are providing substantial financial contributions. In addition to extending the maturities of their R\$1 billion of debentures, both Banco do Brasil and Bradesco continue to make available important financing mechanisms to the Company, including over R\$300 million in new credit lines and letters of credit. Furthermore, GOL reached an agreement with Smiles in which GOL

will be able to make advance ticket sales, subject to the level of cash benefits generated by its restructuring, including the results of the Exchange Offer.

“We strongly believe that this is a good and fair offer, and the best that Gol can provide, and we expect that bondholders will understand that it is in their best interest to exchange their Notes. The threshold is set by the Company, and we can change it if circumstances call for it,” continued Mr. Lopes.

The USD bond exchange offer expires on May 17 for bondholders desiring to obtain an extra “early-bird” premium, and on June 1, for those not desiring the extra premium. Holders may contact the information agent to request the eligibility letter at (212) 269-5550 or toll free at (866) 796-6898. Holders can also visit [www.dfking.com/gol](http://www.dfking.com/gol) for instructions on how to participate in the Exchange Offers.
