GOL discloses preliminary traffic figures for March 2020

São Paulo, April 6, 2020 - GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and B3: GOLL4), Brazil's largest domestic airline, announces today preliminary air traffic figures for the month of March 2020, compared to the same period in 2019.

During the month of March, GOL adjusted its network in both domestic and international markets to account for the decrease in customer demand as Brazilians take responsible steps to socially distance and avoid travel during the COVID-19 pandemic.

In the period between Monday, March 1 to Friday, March 13, which was unaffected by COVID-19, the occupancy rate on GOL's domestic flights was approximately 82%, with preservation of yields in the same period. GOL's strong discipline in capacity and yield management, based on our highly adaptable and flexible single-aircraft type fleet, allowed us to adjust our flight offer in an agile and rational way. On March 16, we reduced domestic flights by 50% to 60% and international flights by 90% to 95%, while remaining alert to the evolving situation. As the effects of COVID-19 reduced demand further, on March 28, 2020, the network was reformulated to guarantee essential service to Brazilian State capitals from the Guarulhos International Airport (GRU). This resulted in a 92% decrease of domestic flights, and a temporary halt of all scheduled international flights. New adjustments will be made to ensure GOL's flight capacity matches the new levels of demand.

March 2020 Highlights:

- | GOL's total flight offer (ASK) decreased 22.2%. Total seats decreased 23.1% and the number of departures decreased by 21.2%. GOL's total demand (RPK) decreased by 29.7% and the occupancy rate was 71.6%.
- | GOL's domestic flight offer (ASK) decreased 20.4% and demand (RPK) decreased by 27.4%. GOL's domestic occupancy rate was 72.8%. The volume of departures decreased by 20.8% and seats decreased by 22.7%.
- | GOL's international flight offer (ASK) and demand (RPK) decreased by 31.7% and 42.9% respectively, and international occupancy rate was 63.8%.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates," "believes," "estimates," "expects," "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
